

**ANNOUNCES A SPECIAL DISCOUNT OFFER
EXTENDED TO FRIENDS OF THE CENTER**

By

The Chameleon Associates

To attend its

**PREDICTIVE PROFILING AND TERRORIST THREAT MITIGATION SEMINAR
METHODS FOR DEALING
WITH SUICIDE BOMBERS**

**SEPTEMBER 19 & 20, 2005
LAS VEGAS, NEVADA**

The Chameleon Associates' method of identifying and confronting suspicious *behaviors* offers a practical, comprehensive and systematic approach to preventing terrorist attacks. It was derived from the hard experiences of Israeli security experts. We were so impressed with the Chameleon Associates' Predictive Profiling method that we invited Amotz Brandes to share his knowledge and insights at our Hard Won Lessons Conference last December. We believe that it is a common sense and cost effective way for local law enforcement to immediately improve its counter terrorism capability.

It is also why we approached the Chameleon Associates with an offer to make our friends in law enforcement aware of this important event. In exchange, we asked the Chameleon Associates to extend a discount to friends of the Center for Policing Terrorism. As a result, the Chameleon Associates is offering a \$100 discount to our friends and subscribers, which reduces the admission fee to \$595 (government rate). **Neither the CPT, Manhattan Institute, or its employees have any financial connection to the Chameleon Associates or an entity connected with it or this conference. We have a high opinion of the Chameleon Associates based on our past work with them and were able to secure a discount for this event for you - friends of CPT - based on our agreement to distribute this flier to you.**

The list of organizations that have attended this presentation in the past is impressive. It includes Sacramento County Sheriff's Department, Los Angeles County Sheriff's Department, LAPD, TSA, FBI, GSA, Los Angeles Metropolitan Transportation Authority, Maine State Police, Orange County Sheriff's Department, Beverly Hills Police Department, and Delaware Department of Safety & Homeland Security. Other notable attendees include US Navy, US Air Force, Singapore's Immigration and Customs Authority, Microsoft, British Petroleum, Canadian Air Transport Authority, and Massachusetts General Hospital.

We encourage you to register and look forward to seeing you there.
